

BIPS TOP 40 FUND AS AT 31 MARCH 2010

FUND OBJECTIVE

Bips Top 40 is an Exchange Traded Fund (ETF) listed on the Johannesburg Stock Exchange. The fund gives investors exposure to the entire South African market with a single purchase, investing into the 41 biggest companies in South Africa in proportion to their market capitalisation. Investors are therefore exposed to resources, financials, industrials and to the biggest corporates on the Johannesburg Stock Exchange with the ease of trading a single share. Market capitalisation fluctuates dependent on size and price, and as such the Fund's holdings will change accordingly, ensuring that the Bips Top 40 portfolio always comprises the dominating players of the South African investment market.

Suitable for investors seeking:

Diversification – an investor is able to gain exposure to all of the shares that constitute the JSE Top 40 index with a single purchase of Bips Top 40 units.

A low cost and simple fee structure – Bips Top 40 is a passively managed fund, offering lower transactional costs and fees than those typically associated with actively managed funds.

Liquidity – just like individual shares, Bips ETFs are priced constantly throughout the trading day and can be bought and sold at any time during JSE trading hours. RMB will ensure daily liquidity in Bips by buying and selling units on the JSE.

Transparency – the exact composition and net asset value (NAV) of each Fund will be published daily on the Bips website. Investors will therefore always know the constituents of the fund that they have exposure to and the market value thereof.

UNDERLYING INDEX

The Bips Top 40 Fund tracks the FTSE/JSE Top 40 index, which contains the 41 largest shares in terms of market capitalisation listed on the Johannesburg Stock Exchange. The ETF invests in all the component securities of the index in proportion to their weighting in the index.

DISTRIBUTIONS

The underlying shares in which Bips invest pay dividends. These dividends are retained in the respective fund in cash and accrue interest. This cash is used to defray expenses incurred in managing the fund. However, the dividends that accrue generally exceed these expenses and the balance is distributed to investors quarterly each year.

The distribution yield for Bips Top 40 as at 31 March 2010 is 1.35%

DISCLAIMER

Bips Exchange Traded Funds (Bips ETFs) are Collective Investment Schemes (CIS) in Securities that trade on the JSE Limited.
